DIALOG SERVICES

Architecture

Electrical Engineering

Interior Design

Structural Engineering

The Francis Winspear Centre for Music grew out of the community's love for music. With a budget deemed impossible by a wide variety of experts, DIALOG assembled a fully integrated team that rose to the challenge of designing an international quality, acoustic music hall. The Centre has expanded the Edmonton Symphony Orchestra's audience and attracted international talent to the stage. More than 20 years later, it still receives critical acclaim and remains central to Edmonton's Arts District.
